Factory Lead Certification

The Factory Lead Certification is intended for individuals responsible for implementing Responsible Business Alliance (RBA) requirements within factories. It is a professional designation to help RBA members, their supply chain partners, and other interested parties understand common standards and supply chain issues.

Training Content

- The Responsible Business Alliance Code of Conduct, Validated Assessment Process (VAP) and Corrective Action Plan (CAP) Management
- Recognizing Forced Labor
- Supply Chain Responsibility and Management
- Industry Standards
- Elements of an Effective Worker Communication Program
- Effective Management Systems
- Ensuring Health and Safety
- Understanding Chemical Management
- Improving Working Conditions

Benefits

1. Increased knowledge of social and environmental standards
2. Plaque and certification valid for 2 years
3. Recognition on Certified Factory Leads list on member-only SharePoint site
4. Invitation to events and webinars
5. Invitation to participate in a LinkedIn group for Certified Factory Leads

The core curriculum takes about 30 hours to complete, and it can be taken entirely online in the Responsible Business Alliance's Learning Academy at the learner's own pace. Good candidates for the program include:

Individuals responsible for VAP audits

Factory level RBA designates or factory management

CSR leads at member companies

Price

$500 per person for member companies

$800 per person for non-members

Group pricing available, contact RBA to discuss further

The Responsible Business Alliance is the world's largest industry coalition dedicated to supply chain responsibility.
